Dear Farmland Merchant,

The FarmlandIndiana.org Micro-site for \$35 annually includes:

1. Your own page on our website highlighting your business
2. The top portion is the same for every business: Name of business, owner, address and phone, website, hours of operation, a photo of choice representing the business, and a link to your website, if you have one. We can forward a www.yourname.com to your Micro-site area for only \$14.95 extra p/yr as well.
3. A description of your business that can be as detailed as you want.
4. Up to 10 pictures that will be in a slide show format that you will be able to add to on your own later.
5. Full service and support to get your area updated at anytime. Most updates are done with 24 hours.
6. Ability to be highlighted in advertising campaigns paid for by FarmlandIndiana.org
7. Ability to add events of sales into the Farmland community calendar at anytime for no charge. Simple email us what you need listed.

Benefits of being listed on FarmlandIndiana.org:

1. We have thousands of visitors at the website each month. The most visited page is the local businesses page.
2. People will find you easier when they simply search for your business name. Because FarmlandIndiana.org is well liked by all the search engines, and all of our pages are built by hand, all the businesses become searchable very quickly.
3. People who never even knew about your business will now be able to learn more about you than they can find by seeing a listing in a yellow pages ad.
4. You will be supporting a great historical city! Farmland Indiana has a rich history and is a popular spot for people wanting to visit and possibly live there. By listing your business, they will be able to see what a great place Farmland Indiana really is.

What is the cost??

We only charge a flat \$35 per year for your micro website listing. We plan on keeping this price low and hope this is affordable for everyone that owns a business in the Farmland Area.

How do I get started?

Send us all the information you would like listed and we will invoice your business for the \$35. As soon as payment is received, we will get your business online with about 48 hours. Our billing system will send you an invoice online that you can print out and mail us your payment, or you can pay it instantly right online with a credit card.

What to expect.

FarmlandIndiana.org will contact you to update you and get you acquainted with our service. We offer Computer Repair in Muncie Indiana, and develop professional websites like the FarmlandIndiana .org website.

Check out www.PerfectPCservices.com to see more of the services we offer for small businesses. We are located at 3728 N Broadway Ave. We are open Monday - Friday 9AM - 2PM for live support and after 2PM until 5PM for appointments.

You can also visit www.PerfectPCwebs.com to see examples of websites we have created and may even recognize some our clients in your area.

Thanks again for your interest in Farmland Indiana!
